Objective

"Frontend Developer with 2+ years of hands-on experience in React JS, React Native, and React Expo, currently working at Black Forest Innovation Pvt Ltd. Passionate about building responsive, high-performance web and mobile applications. Seeking a growth-oriented role where I can apply my React expertise to deliver impactful user experiences."

Experience

- **Black Forest Innovation Pvt**

React JS | React Native | React Expo(Front End Dev)

- Developed and maintained cross-platform mobile applications using **React Native, Expo, EAS Build, and EAS Updates**.
- Built responsive and reusable web interfaces using **React.js and Material UI**.
- Integrated RESTful APIs for dynamic data rendering across web and mobile applications.
- **Implemented Firebase Analytics** and e-commerce **event tracking** for user interactions, cart, checkout, purchases, and custom events.
- **Implemented push notification** functionality in React Native applications using **Expo Notifications**.
- **Configured frontend SEO** using meta tags, Open Graph, canonical URLs, and structured data (JSON-LD) for improved search engine visibility.
- **Managed production builds** for Android using **Expo EAS Build** and supported **application releases through Google Play Console**.
- **Deployed and maintained React.js web applications** in production environments.
- Collaborated using Git & GitHub with feature branching and version control.
- Translated Figma UI/UX designs into responsive, production-ready web and mobile interfaces.
- Leveraged AI tools including GitHub Copilot and ChatGPT to improve development productivity and code quality.

Key Achievement: **Successfully migrated** the mobile application from **React Native CLI to Expo CLI**, enabling cloud builds and **over-the-air updates through Expo EAS**.

- **SBL Knowledge Services Pvt Ltd at Madurai**

Photo shop editing, QA (client login remote)

- Performed quality assurance and image auditing for client data using remote login tools
- Used Adobe Photoshop for professional image editing and post-processing

- **Expo automation company pvt. at coimbatore**

R&D Engineer

- PLC programming and Logic checking on all equipments.
- Inspecting finished products quality and creating reports
- Service and replace faulty or damaged equipments.
- Adhering to all safety performance and regulations.
- Responsible for Quality checking both electrical and mechanical.

Education

- **Kamaraj college of engineering and technology**

B.E Mechatronics Engineering
